ENO
Environment Online

ENO Environment Online invites primary and secondary schools around the world to participate in making the weather observations during the ENO weather week 31.10 - 4.11.2022. The results are shared with the ENO network. See detailed instructions below.

INSTRUCTIONS:

BEFORE:

- 1) Visit [ENO Weather Week page](#) and [the project page](#)
- 2) Check out the [online observation form](#) in the project page and go through the questions
- 3) **Get the materials and tools needed:** smartphone/tablet or pen and paper for notes, thermometer, air pressure and rainwater measurement tools etc.

Do your weather measurements at noon or around noon each day.

YOUR WEATHER WEEK:

- 1) Fill in the [online observation form](#) with the informations and the measurement results everyday within one week.

AFTER:

- 1) **Make a presentation of the results.** The presentation can include:

- **Graphic presentations** of the results by using either [Google sheets](#) graphic tools or by using the digital tools you like or do them by drawing by hand. Creativity is welcomed!
- **Writings:** Write a few lines about the subject *CHANGEMENT* and discuss in it if and how climate change has affected your area. You can include pictures and other data into it. If you are an earlier participant you can use the [data collected](#) by your school during the years. Make comparisons of the years. Write a few lines about the subject *CHANGEMENT* and discuss in it if and how climate change has affected your area. You can include pictures and other data into it.
- **Video presentation:** Make a video with students explaining the results and discussing the possible changes in climate in your area.

- 2) **Share you observations and presentations** with the ENO network:

- a) **Facebook:** [ENO Teachers group](#)

use the hastags [#ENOweatherweek](#) [@enoprogramme](#) [#enoprogramme](#)
