

8-9 February 2023

10:00-12:00 Eastern European Time / 17:00-19:00 Japanese time

Deadline for proposals 19 December 2022

High school students, vocational school students, university students!

Nagano Prefecture, Karelia University of Applied Sciences, University of Eastern Finland and ENO Schoolnet Association are calling all high school, vocational school and university students to submit their presentation proposal in the Zero Carbon Conference 2023.

The student presentations will be 6 minutes long and should include experiences and practical solutions for reducing carbon emissions in schools, communities or personal life.

The conference will focus on mitigation of climate change and adaptation to effects of it. Mitigation is achieved either by reducing the sources of greenhouse gases or by enhancing the storage of these gases. Adaptation is possible by taking action to prevent or minimize the damage effects of climate change can cause or taking advantage of opportunities that may arise.

Utilising local resources
For example:
• Forest resources
• Energy
• Culture and food
• Sustainable design

Sustainable local business
For example:
• Sustainable tourism
• Agriculture/forestry
• Food production

A joint meeting for experts and student presenters will be held on 18 January. The rehearsals to practice the presentation and timing of the presentations will be held on 25 and 26 January.

Proposals for presentations can be submitted by 19 December at https://bit.ly/3SYzzQT
