

Hei kaikki! (Hello everyone!)

Sorry, that I have not posted earlier. I have been very busy visiting all the pupils of class 3B, so I haven't had time to tell you about my trips. I've been doing great things and tasted many Finnish foods! Here you can see pictures of my trips.

Carelian pie and evening tea (Suomi-tea) with honey.

Very tasty "korvapuusti", which is a sweet bun and has lots of cinnamon and butter inside.

Sausage tastes good, when you grill it and eat it outside.

Oooh, smells delicious!

There are many types of pancakes in the world. In Finland we usually make it this way.

My breakfast often includes Finnish rye bread. It is delicious and very healthy.

There was a pizza and candy friday. I liked the homemade pizza a lot!

I went downhill skiing in Saariselkä, Lapland! It was awesome!

At mökki (summer cottage) I got to do some woodwork.

This is rice porridge with cinnamon and sugar. People eat it especially at christmas time, but it is always delicious!

"Ahven" is Finland's national fish. I ate fried ahven fillet.

I was skiing and after that I drank hot chocolate.
