

The world today is a big open wound, there's just too much darkness and polarity out there. What we as teachers owe to our children, is to create beauty and harmony. And who whispers beauty to the world louder than flowers, these little symbols of new beginnings?

So, here's our new ENOArt Contest: **FLOWER**

INSTRUCTIONS

- Create a 3D model of a **FLOWER**. Construct it only from old and used materials. **Reuse** all the broken and forgotten things: plastic bottles, tins, paper, newspapers, cans, wheels, seeds, buttons, CDs, glasses, fruits, bottles... you name it. There is no limitation on types of materials.
- Any materials needed for the construction - such as glue, string, tape, nails, screws, or other similar materials - are allowed.
- The flower must have a 3D construction (NO DRAWINGS!), there is no limitation regarding the size.
- The most important thing is your imagination. We want to meet **your unique mystic flower**.

RULES

- Take three photos of your flower from different angles. Presentation is very important!
- One photo must be taken from above and the flower must lie on the black surface. This way you will help us create a huge flower carpet. **check on page 3*
- Add a short description of the used materials.
- **Each submission with a maximum of three photos must be clearly identified.**
Please remember: DATA SHOULD BE READABLE IN ENGLISH AND WRITTEN IN LATIN ALPHABET!

1. Entry category (A, B, C,D)
2. Full name of author(s), age of the author(s)
3. Full name of the mentor, email of the mentor
4. Name of the school and full address of the school
5. Country

- **Each school is limited to a maximum five submissions! Due 15 May 2024.**

REGISTRATION

Register before 15 April 2024 [from here](#). In the registration you can skip the names of the students.

SUBMISSIONS

Entries must include ALL of the above information and three (jpeg) photo attachments, and should be sent via email to: enoart@enoprogramme.org

ENTRY CATEGORIES

- A – Kindergartens, 5 – 6 years
- B – Primary schools, 6 – 12 years
- C – Secondary and high schools, 12 – 19 years
- D – Teachers

EVALUATION, JUDGING AND PRIZES

- **Your artwork will be evaluated for Best Presentation, Best Use of Materials and above all, for the most ORIGINAL and the most CREATIVE idea.** DO NOT send us Pinterest ideas!
- The international jury is consisting of three top art experts, coming from 3 different countries.
- Top five projects will get a diploma signed by ENOArt, ENO and the International jury.
- Every participant will receive a certificate signed by ENOArt and ENO-Environment Online.
- A winner of each category will get a practical award by [ROPEE eco-friendly jump ropes](#).
- All the entries will be displayed within the online gallery and presented in the video.

EXHIBITION

Last year we organized a big outdoor ENOART exhibition which took place in Polhov Gradec Mansion Park. This year you can do it yourselves. As your students will probably make a lot of flowers, it would be interesting to make a flower installation in your school or in your town. You can decorate a wall, “plant” flowers in the park... only sky is the limit. Please, do not forget to make a photo and share it with us.

Thank you! Let’s all become a gift of beauty to this world!

*Upcycled flower: Neža Kralj,
Polhov Gradec Elementary
School, Slovenia*

*Just living is not enough... One must have sunshine, freedom and a little flower.
Hans Christian Andersen*

Darinka Orel, ENOArt

Maire Turunen, ENO – Environment Online

*Ad RULES:

One of three photos should be taken from above so that we can see the whole blossom. Put a flower on the black surface (or any other color that is the contrast to your flower!) like this:

AWARDS:

ROPEE a north Carelian jump rope company. The products are handmade and ecological aspects are taken under consideration. They also work with schools and organise education and campaigns. Check www.ropee.fi
