

ENO Weather Week

19-23 Oct 2020

ENO Weather Week is here again! The week for observations is from 19th to 23th October (the week 43). Here are the instructions for participation:

- 1) Check out the [online observation form](#) and go through the questions.
- 2) **Get the materials and tools needed:** smartphone/tablet or pen and paper for notes, thermometer, air pressure and rainwater measurement tools ... **Do your weather measurements at noon or around noon each day.**
- 3) **Fill the online form** with informations and measurement results.
- 4) **Make graphic presentations** of the results and comparisons between the years and participants in your area/country or in the network. You can use Google sheets graphic tool or make them otherwise -using the digital tools you like or by doing drawings in hand, doing handicraft etc. **Creativity is welcomed!**
- 5) **Share you obsevaritions** with the ENO network: in facebook at the ENO Teachers group using the hastag [#ENOWeatherWeek2020](#)
