ENO WEATHER WEEK

ENO invites schools to participate in ENO Weather Week to make weather observations again! The week for observations is 1-5 Feb 2021 (week 5) and the theme for this Weather week is *CHANGEMENT*. The project is aimed at new and former participants. The idea of this week is to observe the weather and make notice of the possible changes during the years in a specific area. Former school participants can use the data collected during the years and new participants can discuss the change for example writing stories about climate change in the area.

ENO Weather Week project page, where the data will be collected, can be found here: <https://sites.google.com/a/enoprogramme.org/enoweather/>
