

The Weather in My Country during the Year

It's usually sunny here and we like it very much because we can play outside, grill and hang out and talk, we go for a walk with relatives, but the sun sometimes destroys the table that we have outside because it burns and curls the table.

When it's rainy we lose our motivation and on those days we lie on the couch and watch movies, eat some chips and popcorn and sweets, as well as some drinks, mostly because we can't do anything, but it's helpful because rain washes our windows.

When it's cloudy we go out a bit to get some fresh air and get some energy. Usually on days like this, when it is cold, we put together puzzles and play board games.

When it snows we have to shovel because we can't get to the garage but when it's done we like to play in the snow.
